This race will be timed using a transponder or commonly known as a “timing chip.” Please take a moment to read these instructions and follow them carefully.

- Chips are non-transferable. Be careful not to switch with friends, family, teammates, etc.
- Wrap the ankle bracelet around your left ankle before the start of the race and continue to wear it until you reach the collection point after crossing the Finish Line.
- Make sure you cross the finish line/timing points only once. Crossing more than once for whatever reason may cause your time to not be accurate.
- If you are part of a relay team, the chip is being used as your “baton,” make sure you have crossed, and moved away from the appropriate timing point before handing the transponder off.
